AIR PURIFIER

Bring Freshness Indoors

ANYPLACE / ANYWHERE / ANYTIME

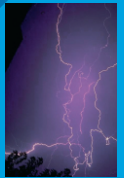

AIR PURIFIER

BRINGING FRESH, CLEAN AIR INTO YOUR PERSONAL SPACE
Nature's Way

Most indoor particles are positively charged. The ionic purifier creates negative ions that cause dust and other particles to fall out of the air. Waterfalls and waves at the beach are good examples in Nature.

The sanitizer creates O_3 that breaks down odors and other pollutants at their source without the use of fragrances. Ozone, O_3 is created in Nature by lightning and gives off a clean, fresh smell after a thunderstorm.

- ✓ Eliminates or Reduces Odors
